This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the linely expulsion of them many rankling disorders are mipped to the bint. Multitudes can by the sil of this remedy, spare themselves from the cadurance of toul cruptions and ulcorous sore, through which the system will strive to rid itself of corruptions, if not assisted to do this through the matural channels of the body by an alterative medicine. Cleanse out the by an alterative medicine. Gleanse out the stated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or seres; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is fout, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pebulum of life disordered, there can be no

so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remody is wanted by those who suffer from Stransons complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

contain but little of the virtue of Sarsapasilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whitever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cleat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which restaupon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intendbelieving it has virtues which are irre-istille by the ordinary run of the diseases it is intend-ed to cure. In order to secure their complete eradication from the system, the remedy should

blood healthy, and all is well; but with this polution of life theordered, there can be no it ting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed far it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.
